

Stay Well. Work Well.

A photograph of a modern, multi-story building at dusk. The sky is a mix of blue and orange. In the foreground, a paved path leads towards the building, with several tall, black light poles illuminated. Two people are walking on the path, their figures slightly blurred. A large tree is on the right side of the frame.

1Q24 Update

Key First Quarter 2024 Themes

From First Quarter Earnings Conference Call

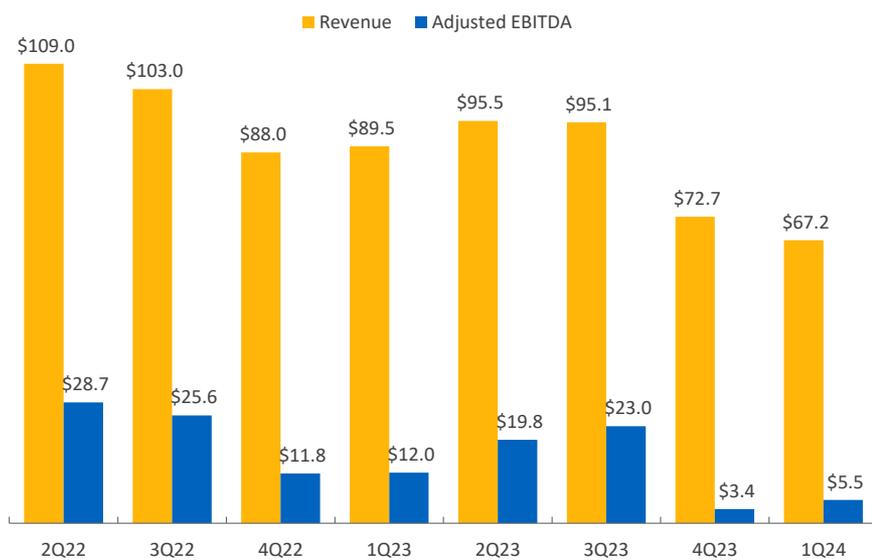

- The first quarter 2024 financial results were in-line with our expectations
 - Revenues of \$166.1 million
 - Adjusted EBITDA of \$17.3 million
 - 0.6x Net Leverage Ratio as of March 31, 2024
- Full year 2024 guidance includes:
 - Revenues of \$625 - \$700 million
 - Adjusted EBITDA of \$80 - \$90 million
 - Capital expenditures of \$30 - \$35 million
 - Free cash flow of \$45 - \$60 million
- During the first quarter, the Company repurchased 133,000 common shares, or approximately \$3.2 million

Canadian Segment 1Q24 Performance

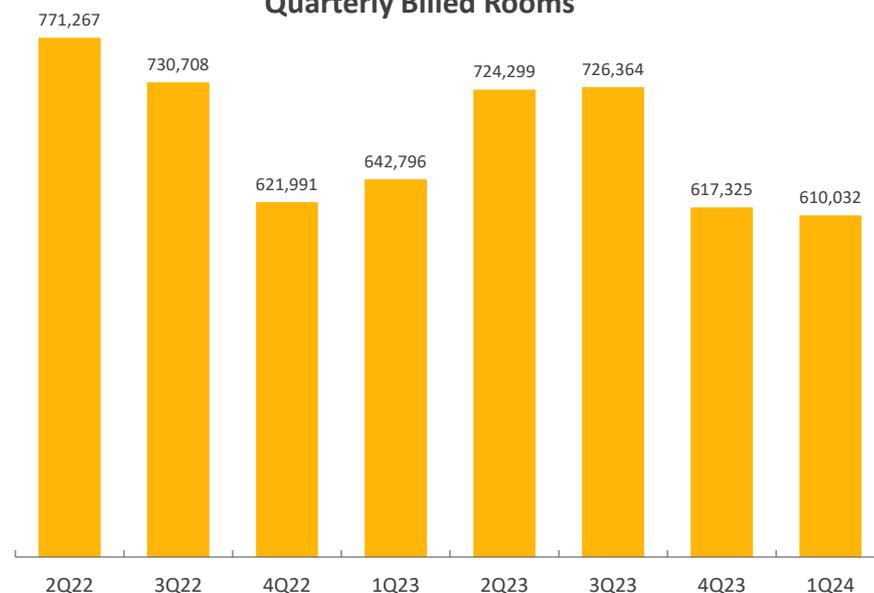

- Revenues and Adjusted EBITDA decreased \$22.3 million and \$6.5 million, respectively, from 1Q23
 - The decrease in revenues and Adjusted EBITDA was primarily driven by the wind-down of LNG-related mobile camp activity, including \$1.8 million of mobile camp demobilization costs
- During the first quarter, billed rooms in our Canadian lodges totaled 610 thousand, which was down from 643 thousand in the first quarter of 2023, primarily due to the sale of McClelland Lake Lodge. Our daily room rate for the Canadian segment in US dollars was \$98, which increased slightly from \$96 in the first quarter of 2023.

Quarterly Financial Performance (USD in millions)

Quarterly Billed Rooms

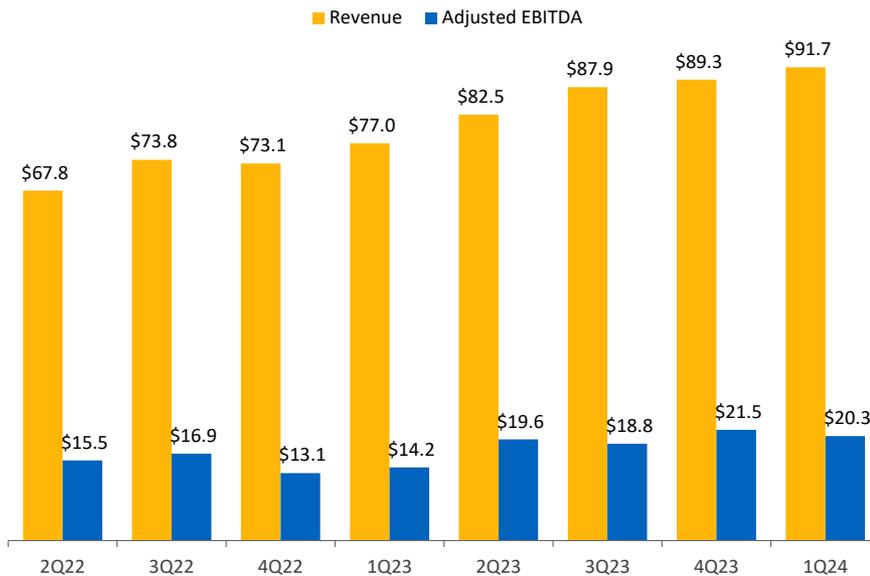

Australian Segment 1Q24 Performance

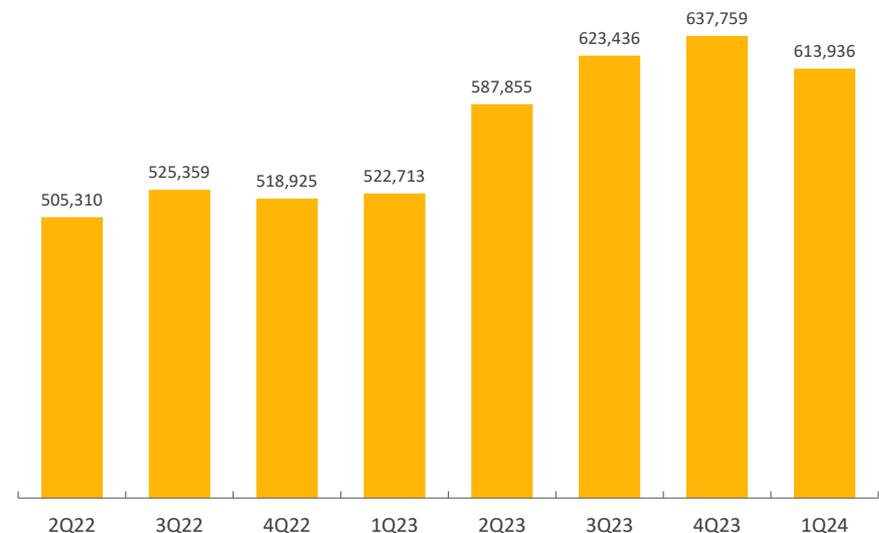

- Revenues and Adjusted EBITDA are up \$14.7 million and \$6.1 million, respectively, from 1Q23
 - The significant increase to Adjusted EBITDA was due to increased billed rooms at our owned villages, increased integrated services activity and improved margins.
 - Results for the quarter were strong despite the headwind of a weakened Australian dollar relative to the U.S. dollar, which decreased revenues and Adjusted EBITDA by \$3.7 million and \$0.8 million, respectively.
- Australian billed rooms were a source of strength with 614 thousand rooms, up 17% from 523 thousand in the first quarter of 2023. This is due to increased customer demand at our owned villages as demonstrated by our recent contract awards. The average daily rate in Australian dollars was up 3% year-over-year.

Quarterly Financial Performance (USD in millions)

Quarterly Billed Rooms (Owned villages only)

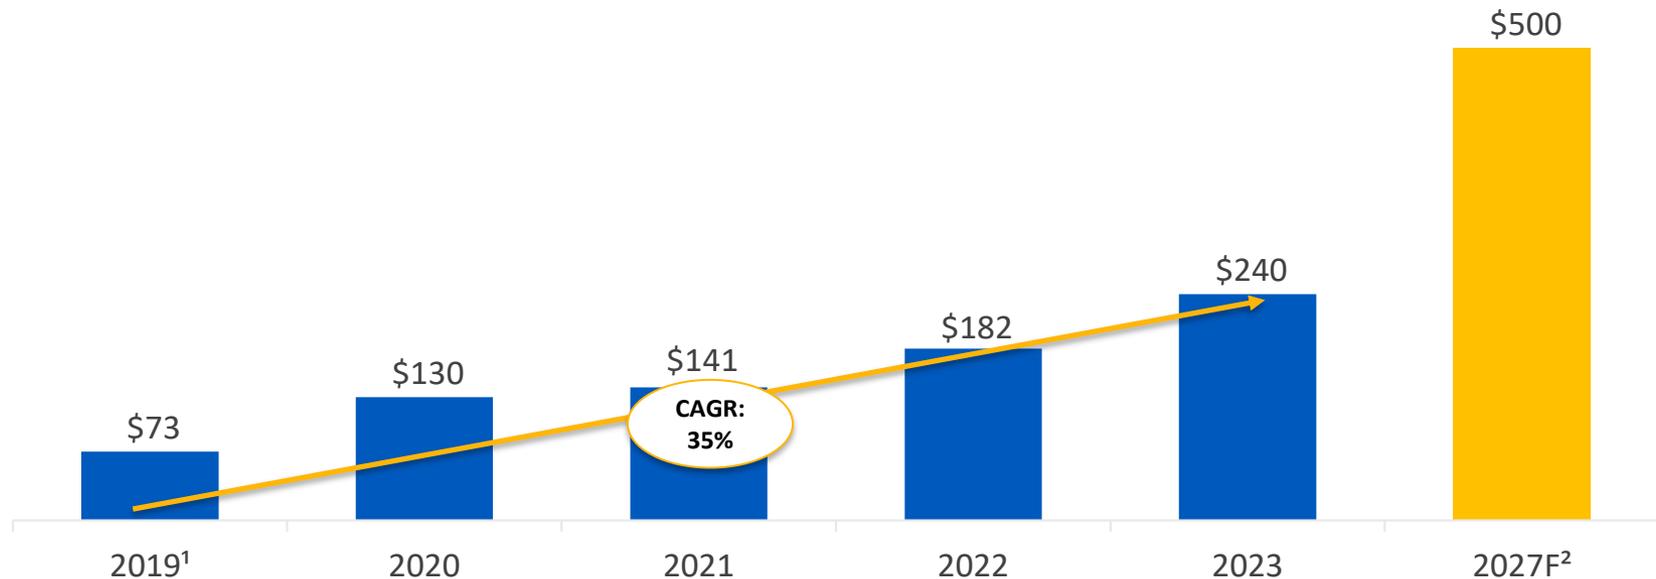

Civeo Australia Integrated Services Growth

- The Australia Integrated Services (CIS) business has experienced significant growth, with a CAGR of 35%, since we acquired Action Industrial Catering in July 2019
- We believe there is substantial opportunity for further growth and recently announced our goal of A\$500 million in revenue by 2027

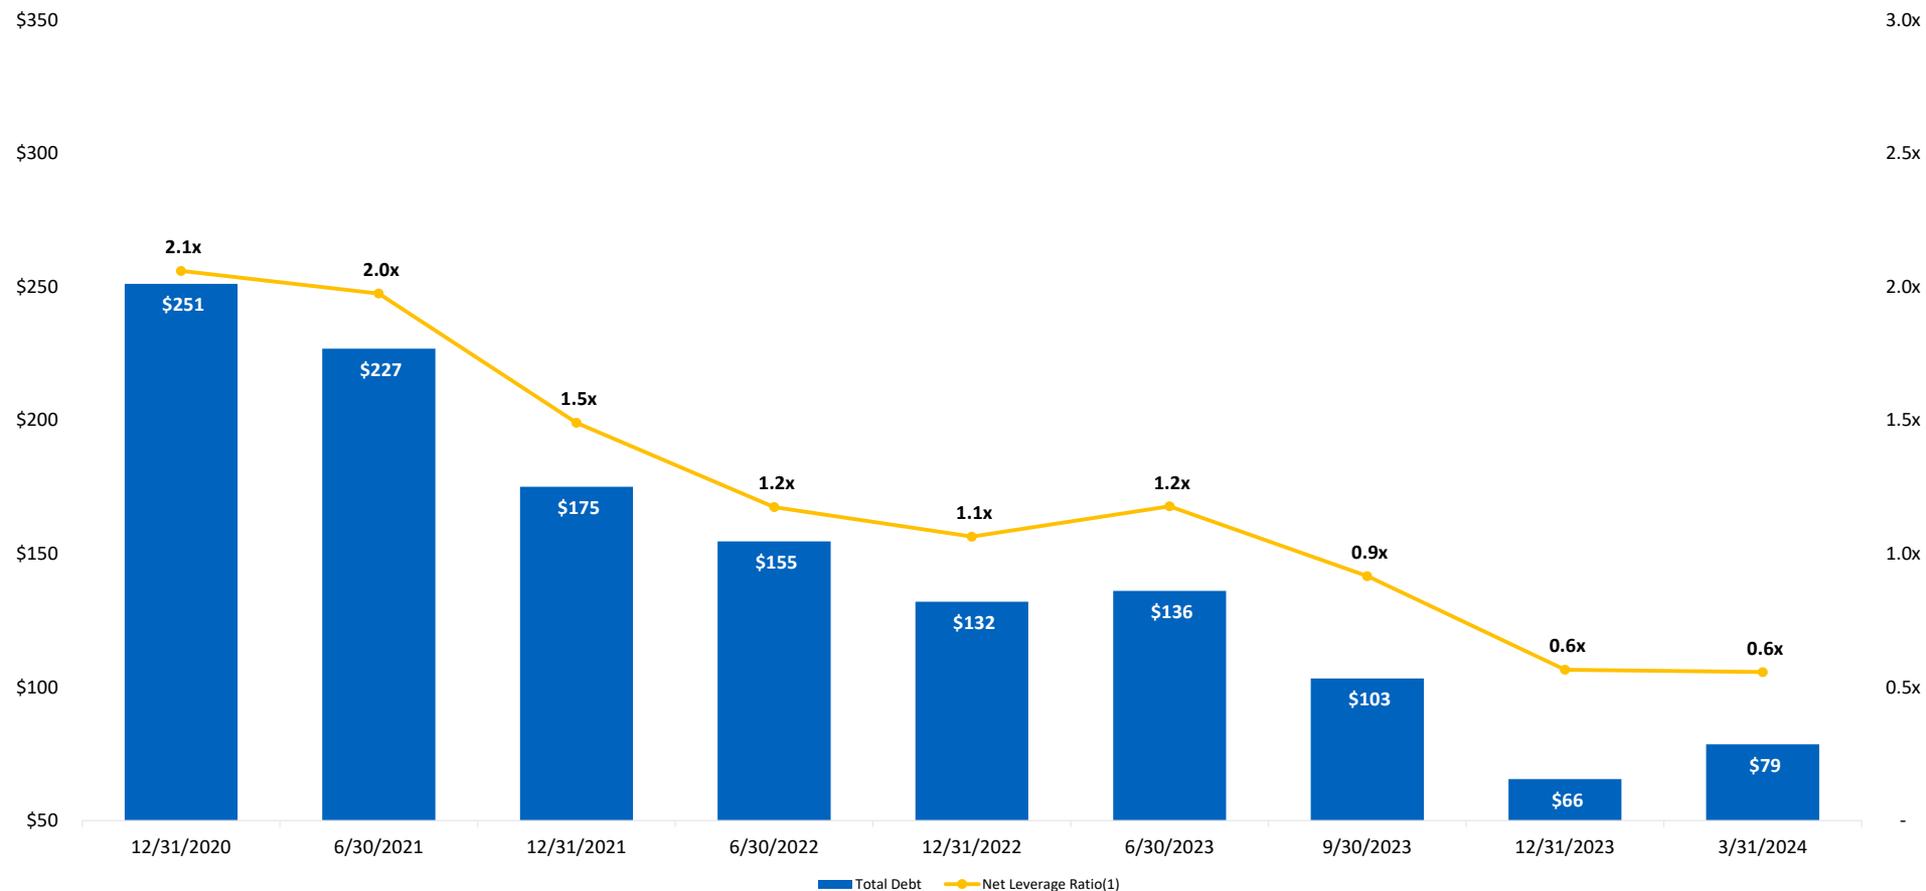

Civeo Australia Integrated Services Revenue (AUD in millions)

1. Full year 2019 proforma. Acquired business in July 2019
2. Management revenue goal for 2027 revenue

Non-GAAP Reconciliations

EBITDA and Adjusted EBITDA Reconciliation

(U.S. Dollars in millions)

The term EBITDA is defined as net income (loss) attributable to Civeo Corporation plus interest, taxes, depreciation and amortization. The term Adjusted EBITDA is defined as EBITDA adjusted to exclude certain other unusual or non-operating items. EBITDA and Adjusted EBITDA are not measures of financial performance under generally accepted accounting principles and should not be considered in isolation from or as a substitute for net income or cash flow measures prepared in accordance with generally accepted accounting principles or as a measure of profitability or liquidity. Additionally, EBITDA and Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. Civeo has included EBITDA and Adjusted EBITDA as supplemental disclosures because its management believes that EBITDA and Adjusted EBITDA provide useful information regarding its ability to service debt and to fund capital expenditures and provide investors a helpful measure for comparing the Civeo's operating performance with the performance of other companies that have different financing and capital structures or tax rates. Civeo uses EBITDA and Adjusted EBITDA to compare and to monitor the performance of its business segments to other comparable public companies and as a benchmark for the award of incentive compensation under its annual incentive compensation plan.

Free Cash Flow Reconciliation

(U.S. Dollars in millions)

The term Free Cash Flow is defined as net cash flows provided by operating activities less capital expenditures plus proceeds from asset sales. Free Cash Flow is not a measure of financial performance under generally accepted accounting principles and should not be considered in isolation from or as a substitute for cash flow measures prepared in accordance with generally accepted accounting principles or as a measure of profitability or liquidity. Additionally, Free Cash Flow may not be comparable to other similarly titled measures of other companies. Civeo has included Free Cash Flow as a supplemental disclosure because its management believes that Free Cash Flow provides useful information regarding the cash flow generating ability of its business relative to its capital expenditure and debt service obligations. Civeo uses Free Cash Flow to compare and to understand, manage, make operating decisions and evaluate Civeo's business. It is also used as a benchmark for the award of incentive compensation under its Free Cash Flow plan.

The following table sets forth a reconciliation of Free Cash Flow to Net Cash Flows Provided by Operating Activities, which is the most directly comparable measure of financial performance calculated under generally accepted accounting principles:

	Three Months Ended 3/31	
	2024	2023

Free Cash Flow	\$ 7.2	\$ (2.1)

Net Leverage Ratio Reconciliation

(U.S. Dollars in millions)

The term net leverage ratio is a non-GAAP financial measure that is defined as net debt divided by bank-adjusted EBITDA. Net debt, bank-adjusted EBITDA and net leverage ratio are not financial measures under GAAP and should not be considered in isolation from or as a substitute for total debt, net income (loss) or cash flow measures prepared in accordance with GAAP or as a measure of profitability or liquidity. Additionally, net debt, bank-adjusted EBITDA and net leverage ratio may not be comparable to other similarly titled measures of other companies. Civeo has included net debt, bank-adjusted EBITDA and net leverage ratio as a supplemental disclosure because its management believes that this data provides useful information regarding the level of the Company's indebtedness and its ability to service debt. Additionally, per Civeo's credit agreement, the Company is required to maintain a net leverage ratio below 3.0x every quarter to remain in compliance with the credit agreement.

The following table sets forth a reconciliation of net debt, bank-adjusted EBITDA and net leverage ratio to the most directly comparable measures of financial performance calculated under GAAP:
