Civeo Reports Second Quarter 2023 Results

Second Quarter Highlights include:

- Reported second quarter revenues of \$178.8 million, net income of \$4.5 million and operating cash flow of \$19.4 million;
- Delivered second quarter Adjusted EBITDA of \$31.6 million and free cash flow of \$12.9 million;
- · Recorded highest quarterly occupancy in Civeo's Australian owned-villages since 2014; and
- · Reduced debt and continued to return capital to shareholders through the share repurchase program.

HOUSTON and CALGARY, July 28, 2023 (BUSINESS WIRE) -- Civeo Corporation (NYSE:CVEO) today reported financial and operating results for the second quarter ended June 30, 2023.

"In the second quarter of 2023, we delivered financial results in line with our expectations while continuing to operate safely and effectively. We generated solid free cash flow in the quarter which was used to repurchase approximately 212,000 Civeo shares and pay down \$6.5 million in debt. The second quarter's results demonstrate the value of our diversified revenue drivers and were notable for the significant year-over-year growth in our Australian segment, driven by a 33% increase in integrated services revenue related to new contracts as well as a 14% increase in Australian owned-village revenue. This quarter's Australian village occupancy marks the highest level we've experienced since 2014. The improvement in Australia in the quarter was offset by lower LNG-related Canadian lodge occupancy and mobile camp activity," said Bradley J. Dodson, Civeo's President and Chief Executive Officer.

Mr. Dodson concluded, "As we highlighted on the first quarter earnings conference call, our two strategic priorities for the remainder of 2023 were mitigating inflationary pressures in our Western Australian integrated services business and evaluating commercial alternatives for our Canadian McClelland Lake lodge assets. I'm happy to report that during the second quarter we made progress on both. We will provide additional updates regarding these developments on our earnings conference call later today."

Second Quarter 2023 Results

In the second quarter of 2023, Civeo generated revenues of \$178.8 million and reported net income of \$4.5 million, or \$0.30 per diluted share. During the second quarter of 2023, Civeo produced operating cash flow of \$19.4 million, Adjusted EBITDA of \$31.6 million and free cash flow of \$12.9 million.

By comparison, in the second quarter of 2022, Civeo generated revenues of \$185.0 million and reported net income of \$9.1 million, or \$0.54 per diluted share. During the second quarter of 2022, Civeo produced operating cash flow of \$21.7 million, Adjusted EBITDA of \$37.1 million and free cash flow of \$17.6 million.

The year-over-year decrease in Adjusted EBITDA in the second quarter of 2023 was primarily driven by lower Canadian LNG-related lodge occupancy and mobile camp activity, partially offset by increased billed rooms at the Australian Bowen Basin villages.

Business Segment Results

(Unless otherwise noted, the following discussion compares the quarterly results for the second quarter of 2023 to the results for the second quarter of 2022.)

Canada

During the second quarter of 2023, the Canadian segment generated revenues of \$95.5 million, operating income of \$3.2 million and Adjusted EBITDA of \$19.8 million, compared to revenues of \$109.0 million, operating income of \$11.2 million and Adjusted EBITDA of \$28.7 million in the second quarter of 2022. Results from the second quarter of 2023 reflect the impact of a weakened Canadian dollar relative to the U.S. dollar, which decreased revenues and Adjusted EBITDA by \$5.1 million and \$1.1 million, respectively.

On a constant currency basis, the Canadian segment experienced an 8% period-over-period decrease in revenues largely related to Canadian mobile camp activity winding down as well as a 6% year-over-year decrease in Canadian lodge billed rooms. Adjusted EBITDA for the Canadian segment decreased 27% due to the aforementioned dynamics as well as inflationary pressures across the business.

<u>Australia</u>

During the second quarter of 2023, the Australian segment generated revenues of \$82.5 million, operating income of \$9.2 million and Adjusted EBITDA of \$19.6 million, compared to revenues of \$67.8 million, operating income of \$5.5 million and Adjusted EBITDA of \$15.5 million in the second quarter of 2022. Results from the second quarter of 2023 reflect the impact of a weakened Australian dollar relative to the U.S. dollar, which decreased revenues and Adjusted EBITDA by \$5.7 million and \$1.3 million, respectively.

On a constant currency basis, the Australian segment experienced a 30% period-over-period increase in revenues primarily driven by increased integrated services revenue related to new contracts as well as a 16% year-over-year increase in village billed rooms. Adjusted EBITDA for the Australian segment increased 35% due the aforementioned dynamics, partially offset by a weakened Australian dollar relative to the U.S. dollar.

Financial Condition

As of June 30, 2023, Civeo had total liquidity of approximately \$89.0 million, consisting of \$77.6 million available under its revolving credit facilities and \$11.4 million of cash on hand.

Civeo's total debt outstanding on June 30, 2023 was \$136.1 million, a \$6.5 million decrease since March 31, 2023.

Civeo reported a net leverage ratio of 1.2x as of June 30, 2023.

During the second quarter of 2023, Civeo invested \$6.9 million in capital expenditures compared to \$5.1 million invested during the second quarter of 2022. Capital expenditures in both periods were predominantly related to maintenance spending on the Company's lodges and villages.

In the second quarter of 2023, Civeo repurchased approximately 212,000 shares through its share repurchase program for a total of approximately \$4.2 million.

Full Year 2023 Guidance

For the full year of 2023, Civeo is increasing the lower end of its previously provided revenue and Adjusted EBITDA guidance ranges. The revised revenue and Adjusted EBITDA guidance ranges are \$640 million to \$650 million and \$90 million to \$95 million, respectively. The Company is decreasing full year 2023 capital expenditure guidance to a range of \$35 million to \$40 million. The \$10 million decrease in capital expenditure guidance is entirely driven by downward revisions to the scope of the customer-funded infrastructure upgrades to three Australian villages announced last quarter. As these upgrades will be fully funded by the customer upfront, this change will not impact our 2023 free cash flow guidance.

Conference Call

Civeo will host a conference call to discuss its second quarter 2023 financial results today at 11:00 a.m. Eastern time. This call is being webcast and can be accessed at Civeo's website at www.civeo.com. (1) The term EBITDA is a non-GAAP financial measure that is defined as net income (loss) attributable to Civeo Corporation plus interest, taxes, depreciation and amortization. The term Adjusted EBITDA is a non-GAAP financial measure that is defined as EBITDA adjusted to exclude certain other unusual or non-operating items. EBITDA and Adjusted EBITDA are not measures of financial performance under generally accepted accounting principles and should not be considered in isolation from or as a substitute for net income or cash flow measures prepared in accordance with generally accepted accounting principles or as a measure of profitability or liquidity. Additionally, EBITDA and Adjusted EBITDA may not be comparable to other similarly titled measures of other companies. Civeo has included EBITDA and Adjusted EBITDA as supplemental disclosures because its management believes that EBITDA and Adjusted EBITDA provide useful information regarding its ability to service debt and to fund capital expenditures and provide investors a helpful measure for comparing Civeo's operating performance with the performance of other companies that have different financing and capital structures or tax rates. Civeo uses EBITDA and Adjusted EBITDA to compare and to monitor the performance of its business segments to other comparable public companies and as a benchmark for the award of incentive compensation under its annual incentive compensation plan.

The following table sets forth a reconciliation of EBITDA and Adjusted EBITDA to net income (loss) attributable to Civeo Corporation, which is the most directly comparable measure of financial performance calculated under generally accepted accounting principles (in thousands) (unaudited):

- (a) Relates to asset impairments in the fourth quarter of 2022. In the fourth quarter of 2022, we recorded a pre-tax loss related to the impairment of long-lived assets in our Australian segment of \$3.8 million and a pre-tax loss related to the impairment of long-lived assets in the U.S. of \$1.9 million.
- (2) The term Free Cash Flow is a non-GAAP financial measure that is defined as net cash flows provided by operating activities less capital expenditures plus proceeds from asset sales. Free Cash Flow is not a measure of financial performance under generally accepted accounting principles and should not be considered in isolation from or as a substitute for cash flow measures prepared in accordance with generally accepted accounting principles or as a measure of profitability or liquidity. Additionally, Free Cash Flow may not be comparable to other similarly titled measures of other companies. Civeo has included Free Cash Flow as a supplemental disclosure because its management believes that Free Cash Flow provides useful information regarding the cash flow generating ability of its business relative to its capital expenditure and debt

service obligations. Civeo uses Free Cash Flow to compare and to understand, manage, make operating decisions and evaluate Civeo's business.

The following table sets forth a reconciliation of Free Cash Flow to Net Cash Flows Provided by Operating Activities, which is the most directly comparable measure of financial performance calculated under generally accepted accounting principles (in thousands) (unaudited):

(3) The term net leverage ratio is a non-GAAP financial measure that is defined as net debt divided by bank-adjusted EBITDA. Net debt, bank-adjusted EBITDA and net leverage ratio are not financial measures under GAAP and should not be considered in isolation from or as a substitute for total debt, net income (loss) or cash flow measures prepared in accordance with GAAP or as a measure of profitability or liquidity. Additionally, net debt, bank-adjusted EBITDA and net leverage ratio may not be comparable to other similarly titled measures of other companies. Civeo has included net debt, bank-adjusted EBITDA and net leverage ratio as a supplemental disclosure because its management believes that this data provides useful information regarding the level of the Company's indebtedness and its ability to service debt. Additionally, per Civeo's credit agreement, the Company is required to maintain a net leverage ratio below 3.0x every quarter to remain in compliance with the credit agreement.
